SALLY RAND IS IN BANKRUPTCY

Says She Has No Money To Pay \$64,631 In Debts She Owes

SAN FRANCISCO, Nov. 21.—(AP)—Helen Gould Beck, better known as Sally Rand, fan dancer, definitely has withdrawn all claim to the title of smart business woman.

She is just a very broke little working girl, who would rather not bother her pretty blonde head with dull figures, especially ones written in red.

Wearing a trim dark suit, with a fluff of white cotton at the throat, and white feathered turban, she told a group of long-faced creditors in bankruptcy court yesterday that her finances were well, frankly, "a mess."

True, she took in \$74,836 from various enterprises at the Golden Gate exposition, sometimes vulgarly called skin shows, and many thousands more from night club performances at the same place in San Francisco.

But she didn't own them, she only got part of the profits, and when even-better offers came along, she sold them. She sold her rights to the debts just received to a creditor for less than the face value.

She also had a small interest in a hotel, a small interest in a restaurant, and a small interest in a beauty salon. She had a small interest in a lot of things, but she didn't own them, and she didn't have the money to pay for them.

Her creditors, including the Golden Gate exposition, the hotel, the restaurant, the beauty salon, and a lot of other people, are now waiting to see what she will do next.

PART OF BIG CROWD WHICH ATTENDED OPENING

Above is shown part of the overflow crowd which attended the formal opening of the new store of Bella Scherck. The woman's shop, also Henry Millers shop and the Tenthred Beauty salon Monday night. Several thousand women inspected the beautiful new shops during the hours of the formal opening.

town on tour with her trunk, her fan and her husband. Real property? "What a real property," she asked, pocketing her brow.

No, she didn't own any land, except a small interest in a little orange grove in California, she said. She had a small interest in a lot of things, but she didn't own them, and she didn't have the money to pay for them.

GANDHI SEEKS PLEDGE INDIA WILL BE FREED

Asks This Guarantee As Price Of Nation's Cooperation In War

BOMBAY, Nov. 21.—Mohandas K. Gandhi, demanding a pledge of India's independence as the price of cooperation in the European war, declared today the issue is purely moral, for owing to her material and military strength, Britain is able to regulate garrisons and drain India's wealth at will.

The 72-year-old Indian nationalist leader, refreshed by his invariable Monday period of silence, met at Allahabad a committee of the Congress party, nationalists seeking to influence the emperor's attitude toward the war.

Complaining the situation is the ever-present British presence, Hindus and Muslims are reported to have killed 12 British soldiers and 12 Sikhs in the province of Southwestern India.

Eleven persons were killed there Sunday morning in a rioting that broke out after the British had arrested 11 persons.

GREAT BRITAIN TO RETALIATE AGAINST NAZIS

(Continued from First Page)

trade, from which she acquires foreign exchange, as well as the flow of imports to Germany.

At about the same time the admiralty was announcing the loss of the minesweeping trawler Mastiff, the air ministry reported that an invading German warplane had been shot down in an engagement with royal air force planes over the east coast today.

The announcement came shortly after word that the trawler Mastiff was lost off the east coast when it struck a mine.

Invading warplanes, in another fight such as carried on to the very edge of London yesterday, flew over southeastern Kent in the chatter of machine-gun fire.

The Mastiff sank yesterday. Another British trawler was reported sunk by a submarine off the Irish coast today. It was not disclosed whether this was a naval vessel.

The Exchange Telegraph news agency reported that it was the 321-ton trawler Sea Sweeper which was sunk and that her crew of 12 landed safely at a north Irish port.

A Lisbon dispatch reported two British freighters had been attacked yesterday by German warships off the Spanish west coast.

The air ministry did not indicate whether the plane shot down on the east coast was one of a group which flew over southeastern Kent.

Later a German bomber, a Nazi machine gun plane, visible, was sighted flying northward over Sutherland county, northern Scotland.

An air raid warning was sounded in the Orkney islands off the northern tip of Scotland, and in all-clear signal came after 40 minutes. The Seapa, a naval base in the Orkney islands, was reported under attack by German bombers.

No air raid warnings were sounded in the populous Channel county southeast of London, but street crowds in Kentish towns heard the rattle of machine-guns and saw royal air force fighters maneuvering against them.

British officers said the trawler Mastiff sank after striking a German mine. The trawler was carrying a cargo of coal.

Trawlers of the Mastiff's class normally carry a cargo of 300 tons. The Mastiff, displacing 400 tons, was one of the newer additions to the British fleet of light vessels. It was built down January 27, 1937, and launched February 17, 1938. It earned the first prize in a race against a German trawler on June 21, 1939.

The Mastiff may have been engaged in the search for German mines which had been placed off the British coast by the Luftwaffe. The Mastiff was carrying a cargo of coal.

Meanwhile, senators interested in farm and pension programs contended that those issues would be of major importance in fixing the political drift for 1940.

Senator McNary of Oregon, the Republican leader, told reporters that the Republican party could be successful in the next election "if it demonstrates to the farm vote and to those dependent on the farmers that the party is interested, as formerly, in their welfare."

He proposed that the party support a "practicable plan covering soil conservation with benefit payments justifying the continuation of that practice" and under which "all benefits and privileges must accrue alike to all producers, irrespective of crops produced."

"I am also convinced," he said, "that the reciprocal trade agreement act, which expires in June, 1940, should be repealed. While some industries may have profited by these agreements, it has been done at the expense of the products of the soil."

During the World War Mr. Moseley served as lieutenant, junior grade, in the aviation corps of the United States navy, spending several months at the front in France.

Mr. Moseley, in addition to being a lawyer, has operated his own farm for 29 years. He has also had practical business experience not only in the handling of his own affairs but by serving as active vice-president of a bank.

Mr. Moseley, as a candidate for governor, is campaigning independently of political factions and financial assistance. He solicits the support of all right thinking citizens of Louisiana who desire to see an end of the corrupt dictatorial system of government. He appeals particularly to ex-service men, to every farmer, to all members of the alumni of L. S. U., and to his personal friends.

CLASS TITLE AT STAKE THURSDAY

Clarks, Lake Providence To
Meet At Tallulah For
District Crown

DELHI, La., Nov. 21.—(Special)—The Class B football championship of northeast Louisiana will be determined next Thursday afternoon in a battle between the Clarks Lumberjacks and the Lake Providence Panthers on the neutral field at Tallulah. It was decided here Sunday at a meeting of the district Class B committee.

The possibility of having three teams in the playoff was eliminated last Friday when the Ferriday Bulldogs, who were making a strong bid for the title, fell before the Delhi Bears, 13 to 7.

Neither Clarks nor Lake Providence has been beaten or tied by any team on their schedule this year, and they met several Class A teams in addition to conference opponents.

In nine games this year the Lumberjacks have proven outstanding offensively and defensively. They have scored a total of 193 points against only 13 points for the opposition. The Panthers, in seven games, have totaled 131 points and limited the opposition to 32 points. The only team included on both schedules was the Newellton aggregation, which Clarks stopped, 6 to 0, and Lake Providence defeated, 18 to 0.

The season's records:
Clarks—Lisbon, 20 to 0; Grayson, 25 to 6; Natchitoches, 25 to 0; Waterproof, 27 to 0; Newellton, 6 to 0; Wiener, 25 to 7; Winnboro, 27 to 0; Leesville, 27 to 0; and Olla-Standard, 13 to 0.

Lake Providence—Delhi, 18 to 0; Eudora, Ark., 31 to 6; Oak Grove, 13 to 7; Tallulah, 14 to 0; St. Joseph, 25 to 12; Gilbert, 12 to 0; and Newellton, 18 to 0.

The winner of the northeast district crown, which was held last year by Newellton, will meet the victor of the playoffs in northwest Louisiana for the north Louisiana title. Winners in the north and south will meet for the state championship.

Four teams are in the playoff in the northwest district, Cotton Valley, Oil City, Sarepta and Dubach.

Mr. Shiel stated that during the year 1938-39 the P. T. A. purchased for the school a public address system valued at \$212.00 and that the bill had been paid in full. Also other smaller items were named that the P. T. A. sponsored.

WILL ASK CONGRESS TO REGULATE RING SPORT

WASHINGTON, Nov. 21.—(P)—Representative Kennedy, Democrat, Maryland, said Monday he would introduce a bill in the next congress to create a federal agency to regulate professional boxing.

Asserting that the fight game seemed to be in "a pretty bad condition," Kennedy said that championship matches apparently were in the control of "one man in New York" and that the outcome of some matches was "known in advance."

"My only interest is to promote cleaner sports and to give a fair opportunity to win to those seeking a national championship," Kennedy said. "Some fighters, although qualified for a championship, never have that opportunity under the present set-up."

The current building program of the United States navy includes eight battleships.

YOUTH ACCUSED OF KILLING WOMAN, 80

NEW YORK, Nov. 21.—(P)—A 21-year-old youth was held on a first-degree murder charge today after authorities said he confessed strangling an 80-year-old woman because she upbraided him for asking her for money.

A few hours after the body of Mrs. Henrietta Lohman was found in her Bronx apartment last night, a 21-year-old man was arrested and charged with the murder. He was accused of strangling the woman because she upbraided him for asking her for money.

Felix 134 police, District Attorney Samuel F. Tamm said, he killed "because she scolded him for running around with girls" and refused his request for money.

Foley said Felix admitted striking the aged woman with a hand mirror before tightening a bath towel about her throat until she was quiet.

Disarranged furniture in the room, detectives said, indicated Mrs. Lohman had struggled with her slayer despite her feebleness.

DELTA TO BUY DOUGLAS SHIPS

14-Place Liners Will Be
Put In Service Next
February

Delta Air Lines have purchased five 14-passenger DC-2 type Douglas airliners from American Air Lines, according to testimony given by P. L. Higgins, Delta operations manager, before the Civil Aeronautics authority, as published in the November 15 issue of "American Aviation."

The planes, Higgins stated, would be operated jointly with five Lockheed Electras on the Charleston-Fort Worth route, through Monroe, and on the proposed Cincinnati-New Orleans; Atlanta-Cincinnati; and Atlanta-Brunswick routes for which Delta is seeking operation authority from the CAA.

According to CAA testimony, Delta will pay \$33,000 each for the five planes purchased from American Air Lines, which now has them in use. Delivery is expected in February, depending on when the American gets delivery of the newer type Douglas DC-3 planes which have been ordered to replace the ships sold to Delta.

RICHLAND BOY IS
SEVERELY INJURED

Daniel Chircel, 15-year-old Richland parish youth, was in a serious condition at St. Francis sanatorium here last night as the result of injuries suffered early yesterday afternoon when he was hit by a truck while riding on a bicycle.

The youth, son of Mrs. Idelle Moore who lives four miles north of Grand, suffered a fractured skull, fractured pelvis, and a badly crushed right leg at the ankle, it was reported.

Chircel was said to have been riding along the Grand-Oak Ridge gravel road when a log truck operated by a negro collided with his bicycle. W. M. Temple, uncle of the youth who brought Chircel here after he had received attention at a Bayville physicians' office, said the negro, whose name he did not know, had stopped after the accident and had been taken into custody by Sheriff J. Foster Jones of Bayville.

TRAFFIC SAFETY LIGHT
PLACED AT INTERSECTION

An automatic safety light for directing traffic has been installed at the intersection of South Second street and Ouachita avenue, it was announced last night.

The street intersection has proven hazardous and several accidents of serious nature have occurred there, it was pointed out, and for this reason city officials felt such a light was needed there. The presence of the traffic light is expected to minimize the danger of the crossing.

Point Roberts, a peninsula jutting into the sea from Canadian territory near Vancouver, B. C., is under the American flag.

Area Director Estel, for 25 years a European and Latin Americanist at Harvard, was the only person retained from the present university who was the speaker before the Town Hall group at Northeastern University College. Many nights. He said that there is no single right way of doing things, even in the field of international relations. He said that the United States has been too much of a "big brother" to the rest of the world.
